Deep Learning

Prerequisites:-
- A) Maths (11th & 12th) ✓
- B) Any Programming Language (recommended Python ✓)

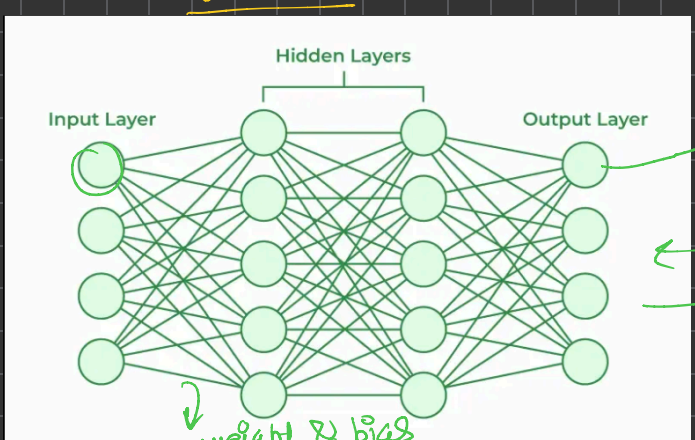
AI → Artificial intelligence?

AI is the coorelation and compression. ✓

Note:- America is giving 1% of GDP in AI infrastructure

$\frac{1}{100} \times 30T = 0.3T$

Neural Networks



Deep learning:- It is a subset of ML, that uses multi-layered artificial neural networks inspired by human brain.
